## TECHNOLOGY FOR NEXT GENERATION CLASSROOMS

- > High quality Digitization
- > Portable and Desktop models available
- > Full HD Resolution
- > Inbuilt SD Card Reader

The document camera or visual presenter is a new and powerful technological tool that allows, in real time, the digitalization of the camera framed objects. The captured images can be saved in image files or popular video formats and can be stored, depending on the model, directly to your computer or SD Card. Ideal for presentations and for teachers who wish to enrich their lessons and make them more interactive, attractive and interesting. It is used in the classroom, in relation to the digital whiteboard allows the simultaneous visualization of all the documents and scanned objects.
