

Onfinity Technologies

Onfinity INTERACTIVE FLAT PANEL DISPLAY (TOUCH LED)

Technology for Next Generation Class Rooms

ONFINITY

Onfinity Multi-touch monitors are modern systems that allow a perfect view for interactive presentations that are easy to use. All monitors come in **True UHD / 4K** resolution. Modern design with black frame, rounded corners, USB input port and Display Port. Android Player Built-in to surf the web and use any app, also optional PC. An App for management of interactive whiteboard is already included on Android system. Functionality of IWB without the use of an external or integrated PC.

APPLICATIONS

Onfinity multi-touch monitors are powerful and versatile tools that can revolutionize display, interaction and transmission of knowledge. This solution creates a convergence of the many tools currently used in the classroom and boardroom (IWB, video projector, DVD player, sound enhancement), in one complete and functional device. It is also the optimal solution for Digital Signage and Video Conferencing.

MAIN FEATURES

- Infrared technology for fast, accurate and reliable touch
- Integrated Android Player, Optional PC
- 10 point multi-touch
- Furnished with built in software for best classroom performance
- Optional Integrated PC, available with i3 / i5 configurations
- Integrated dust proof design for easy maintenance
- Front loading USB for ease of use.
- Automatic brightness adjustment

Most useful for :

Colleges, Universities, Hospitals, Libraries, Hotels, Cafes, Pubs, Museums, Theaters, Cinemas, Airports, Railway stations, Shopping malls, Subways and Bus stands.
